ARMY NATIONAL CEMETERIES PROGRAM
ARLINGTON NATIONAL CEMETERY
ARLINGTON, VA 22211-5003

May 16, 2018

Arlington National Cemetery (ANC) proposes a project to expand the Closed Circuit Television system in the cemetery. ANC invites review and comment from the public on this project. We do this in accordance with Section 106 of the National Historic Preservation Act and The Programmatic Agreement among Arlington National Cemetery, The Virginia State Historic Preservation Officer, and the Advisory Council on Historic Preservation for the Operation, Maintenance, and Repair Activities at Arlington National Cemetery.

The document "Arlington National Cemetery, Closed Circuit Television Expansion Arlington, Virginia, Project Description, Area of Potential Effects, and Assessment of Effect, May 15, 2018" accompanies this notice. It shows the areas affected by the project, contains annotated photographs of those areas illustrating camera locations and equipment proposed for installation, and lists the historic properties contributing to ANC's and Fort Myer's National Register of Historic Places Historic District which are in the areas of potential effects.

As researched, evaluated, and documented in "Attachment D, Application of National Register of Historic Places Criteria" for archaeological resources, there are no significant archaeological resources in the area of potential effects.

ANC's Cultural Resource Manager assessed the effect of the proposed project using the criteria of adverse effects (36 C.F.R. 800.5(a)(1)) and determined the expansion of the Closed Circuit Television system will have No Adverse Effects on the characteristics which qualify ANC's and Fort Myer's historic districts for inclusion in the National Register of Historic Place.

Please send your comments to Cultural Resources Manager at usarmy.pentagon.hqda-anc-osa.mbx.cultural-resources@mail.mil and include "CCTV" in the subject line. Comment are due no later than June 16, 2018.

Thank you for your interest in Arlington National Cemetery.
